***Training Status Fortnightly Report**

Student Name	K. Mohammed Abdulla Khan
--------------	--------------------------

Student Contact No.	9603670048
Student Email id	abdullaaa.alikhan.ak@gmail.com
Company Name	Hindupur Steel & Alloys (P) Ltd. (franchisee: Kamdhenu steel)
Project Title (if any)	
Reporting Manager	Mr. Pradip Kumbhakar (General Manager)
Contact No. of Reporting Manager	+91 9505681005
Email id of Reporting Manager	hindupursteelhup@gmail.com
Training Objective & Expected Deliverables	The internship provided hands-on exposure to quality control, production, and dispatch operations in the steel industry. Work included tensile testing of rebar, TMT bar specifications as per <u>IS 1786</u> , Ring Test analysis, the TMT production process at Hindupur Steels, and supervision of dispatch loading. Deliverables included daily reports with test data, production observations, power cost calculations, and dispatch summaries.

Status Update

--

Work done since Last two weeks & Current status	Week1- 1. Observed quality control testing procedures at the Grade Testing Laboratory. The lab conducts testing for rebar of 8 mm, 12 mm, and 20 mm diameters every 30 minutes during production runs of approximately 25–30 tonnes. 2. Studied the physical and structural properties of TMT bars — standard sizes, weight formulas, bundle configurations, and IS 1786 tolerance limits. 3. Studied the physical and structural properties of TMT bars — standard sizes, weight formulas, bundle configurations, and IS 1786 tolerance limits. 4. Studied the Ring Test (Etching Test) as per IS 1786 : 2008 quality Standards — a quality check to verify that TMT bars have been properly quenched and contain the correct three-zone microstructure. 5. Observed the complete production process of TMT bars at Hindupur Steel — from raw material collection and quality testing through smelting, billet formation, and power cost analysis. WEEK – 2 - Was appointed to the Dispatch Section during Week 2 to supervise the loading of TMT bars of various sizes onto delivery vehicles as per individual customer orders
Any Issue Encountered	NO
Plan for the Next two weeks	Plan for the next two weeks is to continue the work in the dispatch team along with studying about the stock management for the week1 and then to proceed into the Billing section which gains experience about building and adjusting ledgers Tally Prime software, generating and printing invoices collaborated with E- way bill system by Government of India.
Any General Issue or Observation	No
