***Training Status Fortnightly Report**

Student Name	K. Mohammed Abdulla Khan
--------------	--------------------------

Student Contact No.	9603670048
Student Email id	abdullaaa.alikhan.ak@gmail.com
Company Name	Hindupur Steel & Alloys (P) Ltd. (franchisee: Kamdhenu steel)
Project Title (if any)	
Reporting Manager	Mr. Pradip Kumbhakar (General Manager)
Contact No. of Reporting Manager	+91 9505681005
Email id of Reporting Manager	hindupursteelhup@gmail.com
Training Objective & Expected Deliverables	The objective of the training was to gain practical exposure to billing and accounting functions, including invoice generation, ledger maintenance, and financial record management. During this period, I developed hands-on experience in preparing and verifying invoices, as well as recording transactions in <u>Tally</u> . The expected outcome was to build accuracy in data entry, understand sales and purchase ledgers, and gain a clear understanding of real-time accounting workflows in the organization.

Status Update

Work done since Last two weeks & Current status	Week -3 During the third week of my internship, I was assigned to the Billing Section, where I learned the process of generating invoices under the guidance of the concerned employee. I gained practical exposure to preparing invoices, understanding billing formats, and ensuring accuracy in customer details and transaction records. This helped me understand the importance of proper documentation and billing procedures in the organization. Week 4: In the forth week, I worked in the Accounts Department, where I learned about maintaining sales and purchase ledgers. I was involved in entering invoices into Tally and verifying the entries after recording. This experience enhanced my understanding of accounting practices, data accuracy, and financial record management within the company.
---	--

Any Issue Encountered	NO
Plan for the Next two weeks	The focus will be on gaining deeper exposure to accounting and plant operations, with emphasis on managing inflow and outflow of payments . In the accounts section, I will perform advanced entries in <u>Tally</u> , understand GST, track receivables and payables, assist in bank reconciliation, and maintain records of upcoming payments against purchase invoices. Simultaneously, I will observe the steel production process from billet to TMT bars, learn basic quality control tests, and understand IS 1786 standards to connect financial and <u>manufacturing workflows</u> .
Any General Issue or Observation	No
